## What is Class Charts for parents?

At the Royal Harbour Academy, you will be able to use Class Charts to keep track of your child's behaviour, view attendance records, access their weekly timetable, view assigned homework tasks, track scheduled detentions, create wellbeing submissions and view announcements from the school.

If you have more than one child, you can access Class Charts information about your children from a single, centralised parent account.

Class Charts for parents can be accessed via the Class Charts website, or through their iOS and Android apps. We advise parents to use the app on their phone.

You should have received a parent code from the school in the post, which will look similar to the example code on the right. This code is used to set up your Class Charts parent account, which is covered on the next page.

## Behaviour

Using Class Charts, the school will share behaviour information with parents; you will see the Behaviour tab when viewing pupils.

By default, the displayed date range is 31 days. To view a different range of behaviour data, click on the Date button to select from the available presets or create your own custom date range.

Below these graphs you can find a list of behaviour activity relating to your child. These display the behaviour that was awarded, when it was awarded, who awarded the behaviour, the lesson the behaviour was awarded in, and how many points the award is worth.
